United Presbyterians Discuss Eligibility of Secret Society Men.

WILL RAISE THE BARS TO NONE.

Members of the Grand Army and Trades Unionists Not Objectionable—Doings of the General Assembly.

Des Moines, May 28.—When the United Presbyterian general assembly opened its session it plunged into a discussion of the report of the judiciary committee as to the change in its creed with regard to admitting members of secret orders into the church. A full discussion of the merits of the question was permitted.

Rev. B. G. Campbell of College Springs, Ia., moved to amend the report by striking out the following section: "This action is not to be construed as to exclude from the church the membership of a large number of societies which are not bound by oath or affirmation, or do not pledge to secrecy in things unknown, or inculcate Christian religion."

Dr. J. A. Grier, chairman of the committee on judiciary, protested against the change, for the reason that there had been a constant call for a definition. "The article," said the doctor, "does not put such societies as the Grand Army under the ban, and, on the other hand, we are not indorsing them."

Dr. J. M. Wallace of Pittsburg said: "I do not believe that the church should be stirred up by an overturn. For the sake of the workmen I do not want this part of the report stricken out. The workmen have just as good a right to form a union as Morgan has a trust, and I do object to the workmen being kept out of the church because they form themselves into a union to protect themselves against their oppressors."

Rev. J. F. Ross of Ohio favored the amendment "because," he said, "they have wine parties, card parties, and many other snares."

By a vote of 90 to 63 the general assembly of the United Presbyterian church adopted the report of the judiciary committee upon the change of creed with regard to article 15. This action is interpreted to mean that it forbids the admission of members of a secret society to the church, and according to some of the delegates expels those belonging to the church who are members of secret orders.

GENERAL ASSEMBLY.

Miscellaneous Matters Receiving Attention at Philadelphia.

Philadelphia, May 28.—The Presbyterian general assembly engaged in a lively debate over the approval of the minutes. Rev. Dr. J. D. Moffatt objected to the phraseology of the resolution creating the committee on revision. The resolution authorizes the continuance of Dr. Dickey's committee, and Dr. Moffatt claimed that this committee had been dissolved when their report was adopted. He therefore suggested that the records be made to show that a new committee was appointed, even though its membership should consist of the old committee. The wording of the resolution was accordingly altered and the minutes were adopted.

Dr. James E. Moffatt of Cumberland, Md., said that Dr. Dickey had been made chairman of the last committee because of his office as moderator of the assembly. He moved the election of Moderator Minton as chairman of the new committee on revision, and the motion was carried.

The report of the special committee on vacancy and supply was read by Judge Robert N. Wilson of this city. The report contains plans for the employment of unemployed ministers and the supply of vacant churches. The portion of the report in which all agreed was adopted, and the remainder referred back to the committee to be reported upon at the next assembly.

Dr. Roberts, stated clerk, as chairman, read the report of the special committee on Young People's work. The committee expressed the opinion that the pastor should be the recognized head of all departments of all congregational activity, and therefore also the head of the Young People's organizations.

The resolutions authorizing the adoption of a plan of oversight and establishing a standing committee on young people's work were defeated. The remainder of the report was adopted.

British Cruiser Stranded.

London, May 28.—The British third-class cruiser Pegasus is stranded off Grain Spit, outside Sheerness. Tugs have failed to tow her off. She is being lighted and it is hoped she will be floated at the next tide.

HORRIBLY MUTILATED

Was the Body of a Woman Murdered in Whitechapel—Denizens in a Panic.

London, May 28.—A sensational murder and case of mutilation has occurred in a low lodging house in Dorset street, Whitechapel, close to the scene of the "Jack the Ripper" murders of 1888. The victim, a woman named Annie Austin, was found dying in a bedroom and removed to a hospital, where she died. The murderer escaped. The wounds on the lower part of the victim's body are too revolting for description. The police are apprehensive of further outrages, and a panic has been created in the neighborhood.

Glassworkers' Wage Scale.

Indianapolis, May 28.—The flint glass bottle manufacturers of the United States are holding a conference in this city for the purpose of advancing and maintaining prices. Over 90 per cent of the industry was represented at the meeting. It is understood that the manufacturers would take some action relative to the wage scale for next season before they adjourn. A number of the flint manufacturers predict that the two window glass trusts, together with the officials of the two L. A. 300 organizations, will not succeed in closing down the co-operative factories.

Northern Pacific Situation.

London, May 28.—Rumors were current on the Stock Exchange that the Morgans and Kuhn, Loeb & Company have finally agreed to settle with the Northern Pacific shorts at 150. Inquiries lead to the belief that this solution of the difficulty will be adopted, though it is not yet actually consummated. J. P. Morgan, Jr., said: "A more hopeful feeling prevails, and it is generally believed that all serious consequences of the Northern Pacific squeeze will be averted by a settlement either at 153 or figures thereabouts."

Rectors of American College.

Rome, May 28.—Three candidates have been chosen by the congregation of the propaganda for the rectorship of the American college here, vacant owing to the appointment May 7 of Mgr. O'Connell to the bishopric of Portland, Me. The names he kept secret, but they include the names of Rev. Dr. Kennedy of Overbrook, Pa. Forecasts of the results are premature at present. The congregation meets in June and will then make a choice, which will require the confirmation of the pope.

Lipton's Plans.

Glasgow, May 28.—After consultation with Mr. Fife, Sir Thomas Lipton has decided to send Shamrock I to America with the challenger, in order that he may continue the trial races right up to the date of the cup races. This will cost an additional £4,000, but Sir Thomas is confident that the advantage to be gained justifies the expense. Captain Wrings will command the Shamrock I with the same crew that has sailed her here this season.

Asphalt Case.

Caracas, Venezuela, May 28.—The president of the supreme court, sitting alone as examining judge in the Bermudez asphalt case, has decided in favor of the jurisdiction of the court, and has ordered Messrs. Quinlan and Warner of Syracuse to deposit \$20,000 guarantee to abide by the final decision. The question of jurisdiction was decided under a decree issued by President Castro May 1. The full court will probably be asked to finally decide the question.

Presidential Party.

Chicago, May 28.—The presidential train reached here from Omaha. A cheer went up from the crowd assembled in the Omaha station as the president appeared upon the rear platform of his car. A large bouquet of American beauty roses, the gift of the school children of Omaha to Mrs. McKinley, was presented to the president. Mrs. McKinley had a comfortable day and shows a distinct gain in strength. The president is much encouraged by the improvement in her condition.

Invaders Blocked.

Cape Town, May 28.—The dash of Kraitsinger's invaders of Cape Town to the south was checked at Vandoesberg by the swift movement of Goring's and other columns. The invaders, finding the way barred, swerved to the northeast toward Cloethe. The continued capture of horses by the British is appreciably impairing the Boers' mobility.

Agreement Signed.

Rochester, N. Y., May 28.—The Otis Elevator company with a dozen or more branch establishments in various cities throughout the country, including Rochester, has signed the new agreement submitted by the machinists and the men will go back next Monday.

The little bee is very busy at the Pan-American Exposition, gathering and storing honey in glass hives in full view of visitors.

OVER TILL NEXT TERM

Go the Philippine and the Remaining Porto Rican Cases.

SUPREME COURT ADJOURNS TO FALL.

Importations From the Orient and Exportations to Porto Rico, Questions Not Settled—Synopsis of Insular Decisions.

Washington, May 28.—The United States supreme court adjourned until the second Monday in October. The last session was devoted to the formal disposition of motions. The two remaining insular cases, one of them that of the fourteen diamond rings, dealing with importations from the Philippines, and the other known as the second Dooley case, involving the question of exportation from the United States to Porto Rico, failed to receive attention, and they go over until the next term.

A synopsis of the court's finding in favor of the government in the Downes case, involving the legality of Porto Rican duties collected after the taking effect of the Foraker law, shows that the court stood 5 to 4 in favor of the government, as follows: For, Brown (Rep.), Gray (Rep.), Shiras (Rep.), McKenna (Rep.), and White (Dem.); against, Harlan (Rep.), Brewer (Rep.), Fuller (Dem.), and Peckham (Dem.).

It was Justice Brown's vote that made a majority in favor of the government in the Downes case. He had voted against the government in the preceding case. Justices Gray, Shiras, McKenna and White sided with the government in all the different cases, and Chief Justice Fuller and Justices Brewer, Peckham and Harlan voted against the government throughout.

Another peculiar feature of the finding is that Justice Brown was alone in the method of reasoning by which he arrived at a judgment in favor of the government in the Downes case, the most important case of the day. Justices Gray, Shiras, McKenna and White expressed their disapproval of this reasoning, but by another course arrived at the same conclusion as Justice Brown.

A Little Embarrassment.

New York, May 28.—Secretary Root is quoted as saying of the supreme court's decisions in the insular cases: "Unquestionably the decision of the court sustains the contentions, theories and the policy adopted by the administration in conducting the affairs of the Spanish islands since the ratification of the Paris treaty. The upholding of the Foraker act signifies that congress has the power to legislate without being limited by the provisional contingencies of the constitution. Of course, there will be some little embarrassment caused by the holding that no duties can be collected except by congressional legislation, but it will be only a temporary embarrassment."

Decision Too Hazy for Them.

London, May 28.—The London newspapers have paid scant attention to the decision of the United States supreme court in the insular cases. The few comments made deal principally with the "confusing nature of the judgment." It is, however, agreed that the practical result is obvious—that it leaves congress free to deal with the annexed territories as it pleases. The St. James Gazette says: "It is one of those legal fictions which had so much to do with the development of our own institutions. It is certainly a convenient judgment for President McKinley's government, and will probably clear away many difficulties bequeathed to American statesmen by the Spanish war."

Griggs Pleaded.

New York, May 28.—Former Attorney General Griggs, in an interview upon the supreme court Porto Rican decisions, said: "It is a splendid victory for the administration on the vital principle of expansion. It is unnecessary for me to say that I am thoroughly satisfied with the work. It is a clear cut victory for the government on the only really important point involved."

Traction Extension.

Dayton, O., May 28.—The initial move toward the construction of an extension of the Dayton and Western traction line from Dayton to Richmond, Ind., has been made. President Valentine Winters and others made a trip over the route, securing consents of farmers relative to the franchise. The extension will be about 16 miles in length, forming a road six or seven miles shorter than the original survey from Dayton to Eaton.

San Francisco, May 28.—The striking machinists report that 22 shops in this city have signed the agreement.

CANNON'S MOUTH

To Be Turned Against Hailstorms, Frosts and Grasshoppers.

Washington, May 28.—The French agriculturists intend to fight frost and grasshoppers, as well as hailstorms, with cannon and smoke, according to an interesting report received at the state department from Consul Covert at Lyons. It has just been determined to hold an international cannon congress at Lyons in November next, and Consul Covert is authorized to extend an invitation to Americans to take part. The success that has attended the experiment of firing at approaching hailstorms to prevent their ravages upon French vineyards has prompted steps for a still further extension of the usage of cannon in agricultural societies' circles.

The theory in some quarters prevails that it is not the frost itself which blasts the budding fruit, but the sun's rays following a night of frost, which find the grape, already sensitive from the cold, an easy victim to the heat. Cannon fired horizontally over vineyards at Asti at sunrise produced interesting results. A strip of vineyard 500 feet wide over which the smoke from two cannon had been spread was entirely protected from the effects of the frost, while the vines on either side were badly injured. An invasion of grasshoppers is announced to occur this summer in southern Algeria, and the cannon's mouth is to be turned against them also.

Reorganized Filipino Force.

Manila, May 28.—The Philippine commission has begun the discussion of the bill to reorganize the courts. Concerning the criticism of the non-appointment of native judges, Mr. Ide said the commission was following its instruction to the effect that other things being equal Filipinos should receive the appointments; but the Filipinos had proved incompetent from the outset. Native speakers welcomed the Anglo-Saxon judicial procedure. All the important American judges were averse to the provisions making Spanish the language to be used in the courts for a period of five years because the commission desires to avoid inconvenience to the lawyers.

Woman in It.

Cheyenne, Wyo., May 28.—During a shooting affray at Medicine Bow, Wyo., Dick England, a well-to-do shopman of that place, was killed and Fred Mole was mortally wounded. A cowboy named Ambler did the shooting. Mole accused Ambler of paying undue attentions to Mrs. Mole, and securing the assistance of England, attempted to drive Ambler out of town. England and Mole are alleged to have drawn their guns and fired. The cowboy returned the fire and England fell dead. Mole has a bullet in the left lung and can not live. Ambler was arrested and sent to Rawlins.

Battle With Tramps.

Carrollton, Mo., May 28.—Charles McKinney, a son of Policeman McKinney, was shot and killed while assisting his father to arrest a gang of tramps. Three of the gang were arrested and placed in jail. Half a dozen others escaped and were pursued by the sheriff and a posse to a point three miles south of Carrollton, where they were surrounded. Here a lively fight ensued, the tramps exchanging shots with the posse. Two more of the tramps were finally rounded up, but not before the sheriff's horse was shot from under him. The others escaped to the woods.

Stirred Up the Police.

Chicago, May 28.—A fully armed party of 46 Sioux Indians passed through Chicago en route to Glen Island, N. Y., where they are to take part in the Indian village exhibit during the summer. The advent of the visitors caused commotion at police headquarters, since the police have been expecting an invasion of the Pottawatomies, who have threatened to seize the lake front under alleged government grants made many years ago. A wagon load of officers started out to quell a possible riot, but returned when they found the red men were peaceable.

Confederate Veterans.

Memphis, Tenn., May 28.—The United Confederate Veterans are in session here with a large attendance. General George W. Gordon of Memphis rapped his desk with a gavel made of wood taken from a tree which shaded the favorite seat of Jefferson Davis at Beauvoir, Miss. General Gordon and General Fitzhugh Lee were accorded tumultuous ovations. Features of the session were welcoming addresses and replies and a lengthy speech by Colonel Bennett H. Young of Louisville. The United Sons of Confederate Veterans also convened.

Town Gutted.

Kindred, N. D., May 28.—Fire here destroyed 22 buildings at a loss of \$100,000, with less than one-third insurance. Nearly all the buildings in three business blocks were burned.

TO MEET AT COLUMBUS

Time and Place Fixed For the Ohio Democratic Convention.

JULY 9 AND 10 ARE THE DATES.

Decision Reached by the State Central Committee—Temporary Offices and Basis of Representation. Other Business Transacted.

Columbus, O., May 28.—The Ohio Democratic convention will be held in Columbus. The state central committee so decided Tuesday evening by a vote of 11 to 10. Only two cities were considered, Cleveland and Columbus. Both towns made a stiff fight, large delegations being on hand to exploit the advantages of each city. July 9 and 10 were fixed as the dates for the convention. The representation will be one vote for every 500 cast for W. J. Bryan in 1900, and the temporary officers probably will be: Thomas J. Cogan, Cincinnati, chairman; Negley D. Cochran, Toledo, secretary; John F. Jones, Ironton, sergeant-at-arms.

Porto Rican Immigrants.

Honolulu, May 16, via San Francisco, May 28.—Inspection of the Porto Rican immigrants brought here by the steamer Colon shows that they are in such state from the need of food that they must be held at the quarantine station and fed until they regain strength sufficient to enable them to bear the journey to the other islands and to the plantations on which they will work. Over half the immigrants on the Colon were women and children and a considerable number of the men were infirm, while all were more or less emaciated.

Cincinnati Strike.

Cincinnati, May 28.—The striking machinists are still hopeful of success, although no sign of yielding has been given by the big manufacturing concerns forming the Metal Trades association. The strikers' headquarters has a list of 20 firms that have acceded to their terms and whose men are at work. These are all firms outside the Metal Trades association, and they employ about 700 men. President Gompers is expected to be here Wednesday or Thursday to settle some difficulty arising among brewery employees.

Universal Eight-Hour Day.

London, May 28.—The international miners' conference now in session in London, and which is attended by many continental delegates, passed a resolution in favor of a universal 8-hour day. The chairman, William M. Abraham, M. P., expressed the belief that parliament will pass an 8-hour law in 1902. M. Cotte, delegate of the French miners, said that if the 8-hour bill now before the chamber of deputies did not progress rapidly enough the French miners were prepared to declare a general strike.

Voted to Quit Work.

Washington, May 28.—Ninety-seven per cent of the machinists in the employ of the Southern railway have voted to strike for the nine-hour day and are now only awaiting the order of President James O'Connell of the International Association of Machinists before going out. This was the announcement made by the spokesman of a delegation of machinists representing the shops of the system which called on Vice President and General Manager Cannon.

France to Get Satisfaction.

Paris, May 28.—The government of Morocco has agreed to give France full satisfaction for the murder of Paul Poinet, the wealthy planter, who, with his son-in-law, was murdered by pirates while on a shooting expedition off the Riff coast in April last, at which time his two daughters were carried off. Morocco will also settle all pending questions affecting Algeria. A Moroccan minister has started for Tangier to see that the agreed conditions are carried out.

Celebrated Case Settled.

Washington, May 28.—The United States supreme court affirmed the judgment of the supreme court of the state of Washington in the case of Charles W. Nordstrom, under sentence of death on the charge of murder committed in that state and directed that the mandate be issued at once. The case has become famous by reason of the fact that Nordstrom's death sentence has been postponed for nine years by reason of legal complications.

McArthur, O., May 28.—Alpha Chapin, 13, of Zaleski, is dead as a result of a broken neck and other injuries received from tying a rope about himself, the other end of which was attached to the cow's horns for leading her to pasture. The cow became frightened and ran a distance of several hundred yards.

For the Farmer.

The following method of destroying briars won a \$15 prize offered by an agricultural paper: "The time to cut briars is in May, as the flow of sap is very strong and the stub or stalk that is left will decay even with the ground. In August, when the cutting is repeated, the old stubs are not in the way of the scythe or machine and by cutting at the time mentioned all plant food from the roots will be prevented and they will decay. Repeat the same operation the next year and the roots are all killed and the briars destroyed. I have given this a test of several years experience and find it to do just as stated. It does not matter whether the pastures are grazed or not. A great many farmers will go to the expense of cutting them annually for years and the result is a failure, when half the time expended in cutting at the times stated will give a more satisfactory result."

War Stamp Tax Yields \$300,137,884.

THE COUNTRY EDITOR

Receives a Glowing Tribute From Senator Hale, of Maine.

[From the Newspaper Maker.]

Senator Hale, of Maine, in discussing the subject of postage on newspapers, paid a tribute to the country editor, which, while it has a familiar sound, must be credited to the representative from the State famous for its distinguished statesmen:

"He is a pack horse of every community, the promoter of laudable enterprise, the worst unpaid laborer in the vineyard. Counting his space as capital, he gives more to charity, his means considered, than any other member of society. He is a power in politics, a pillar of the church, a leader in the crusade for better morals. He is pre-eminently the friend of humanity. Line upon line, paragraph upon paragraph, day by day, he is embalming in cold type facts from which the Herodotus, Tacitus, Sismondi, Macaulay of the future will write the history of our times. He fully chronicles our advent into the world, briefly notes our uprisings and our downfalls, and sorrowfully records our exit. We are all, more or less—generally more—his handiwork, and the creature should not be ungrateful to his creator. Without his generous and enthusiastic labors most of us would have never been here; and, when he tires of us, most of us will return to private life and rural scenes propitious for secret meditation and silent prayer. Working night and day during the campaign, when the election is over and the time comes for the distribution of the loaves and fishes—now vulgarly called 'pie'—by some strange lapse of memory he is generally forgotten."

WHAT STATES ARE DOING.

Splendid Exhibits and Buildings at the Pan-American.

The States of the Union generally show a deep interest in the Pan-American Exposition. Liberal appropriations have been made for exhibits. Several of the States have erected handsome buildings in the Court of State and Foreign Buildings.

New York's appropriation is \$300,000. A magnificent permanent building has been erected, and an exhibit highly creditable to the Empire State is installed.

Illinois appropriated \$75,000 for a building and exhibit.

Michigan's appropriation for a building and exhibit is \$40,000.

Ohio's appropriation is \$30,000. The State has erected a handsome building.

Missouri appropriated \$50,000 for a building and exhibit.

Washington has appropriated \$25,000 and has a building constructed of native timbers used as State Headquarters.

Wisconsin appropriated \$25,000 for a building and exhibit.

The New England States joined together for the erection of a building and display of their resources and industries. Massachusetts appropriated \$15,000, Rhode Island \$20,000, and Connecticut, Maine, Vermont and New Hampshire have expended sums sufficient for suitable exhibits.

Georgia appropriated a sum sufficient to pay the expenses of a fine exhibit.

Idaho appropriated \$15,000 for an exhibit.

Pennsylvania's appropriation for representation is \$35,000.

Minnesota appropriated \$20,000 for an exhibit.

New Jersey's appropriation for representation is \$25,000.

North Dakota expends its appropriation of \$10,000 for an exhibit.

Oregon expends \$25,000 for an exhibit.

Maryland appropriated \$25,000 and appointed a commission to prepare an exhibit.

Delaware made an appropriation for an exhibit.

Washington, Montana, Mississippi, Louisiana, Texas and other States are suitably represented.

In addition to the exhibits made under the auspices of the different State governments, there are numerous displays of the industrial and natural resources of the States by individual exhibitors.

The twenty-fifth anniversary of General W. R. Smith as President of the Commercial College of Kentucky University will be celebrated June 4th. Addresses will be delivered by Lieutenant Governor J. H. Tillman, of South Carolina, Judge Hazlerigg, Judge Mat Walton and ex-Governor Bradley.

A young cyclist named Prather was riding along Second street, Fifth ward, Tuesday morning when his wheel got away from him and fell in front of Mr. George W. Crowell's horse. The animal's fore feet became entangled in the wheel and made a wreck of it. Mrs. Wm. Traxel and child were in the buggy drawn by the horse at the time and a serious runaway was narrowly averted. The boy had just bought his wheel.

There was a case before the Northern Presbyterian General Assembly at Philadelphia, carried up from a Presbytery in Ohio, of an elder at Loveland kissing a young lady. It seems fitting that such a thing should have occurred at that place. A writer thinks it a mighty small matter to bring before so large and august a body, and adds: "If the Assembly takes cognizance of such disputes there's no telling where it may end. They are all tangled up about revision, and it's to be hoped they won't get the two questions mixed."

Maysville

May now see the finest display of Commencement Dress Goods ever shown here. We have selected these dainty snowy fabrics with the greatest care and—according to quality—prices vary largely enough to suit any purse. Victoria and Persian Lawns, plain and embroidered Swiss, Wash Chiffon, Mull, Linens, Nainsooks, Mercerized Batiste, wash silk and the rest of the White Goods family—all the old friends and many new ones—are here to greet you. 10c. starts the list with a soft, fine India Linen that will make up prettily and give a long service. There are many between prices, the scale ascending in 5 and 10-cent graduations until we reach Embroidered Swiss at 75c. It's a fabric regal enough for the handsomest June graduate or bride.

All the Accessories

Are also here. Laces, Beadings, Allovers and Appliques in countless patterns. Ribbons of many shades and weaves with white and cream in any wanted width. Have you seen the 6-inch pure silk, soft finish Taffeta Ribbons in pastel stripes and borders we are selling for 25c.?

Low Temperature and Lack of Sunshine Check Growth of Vegetation—Wheat Quite Promising—Fruit Prospects.

(Weekly Bulletin of Weather Bureau.)

The temperature averaged decidedly below the normal during the week and frequently showers occurred. The rainfall was beneficial and resulted in decided improvement in some localities, but the low temperature and lack of sunshine checked the growth of vegetation generally.

Wheat has improved and is looking quite promising. There is some complaint of the Hessian fly in a few localities in the central portion of the State, and it is heading rather low.

Tobacco setting has commenced and the weather has been favorable for this work, but in many localities, especially in the central portion, the plants are small and scarce.

Corn is being cultivated, but is growing rather slowly on account of cool weather.

Apples are dropping badly, but other fruit is doing well. Strawberries are ripe, but are not as good as usual. Gardens are late. Irish potatoes are doing fairly well. Oats have improved in many sections, but are not generally very promising. Cut worms are reported to be very numerous, and in many localities are doing a great deal of damage.

Farm work was delayed by rain, but is not far behind generally. Considerable damage was done in some localities by heavy local thunderstorms. Some stock have been killed by lightning and crops damaged by hail and wind.

Decoration Day at the Postoffice.

JUBILEE CONVENTION.

The Fiftieth Anniversary of the Y. M. C. A. To Be Celebrated at Boston June 11th-16th.

The jubilee convention of the Young Men's Christian Association of the United States and Canada will be held in Mechanics' Hall, Boston, Mass., June 11 to 16, 1901. This convention will celebrate the fiftieth anniversary of the organization of the first Young Men's Christian Association on the American Continent in Montreal and Boston in 1851. Its purpose will be to review the progress of the associations of North America for the half century, to examine critically the results, methods, and actual conditions and plans of these associations in the light of the providential principles and purposes of the association movement, to inaugurate an aggressive spiritual movement in the associations on behalf of the young men of North America and of the non-Christian world, and to promote world-wide unity of this work for young men. All departments of the association work will be represented by delegates at this convention, including leaders from city and town associations, as well as from the organizations for students, railroad men, soldiers and sailors, colored young men and other special classes. It is already certain that the convention will be the largest and most representative gathering of association men ever held on this continent. It is expected that about one hundred gentlemen who are deeply interested in Association work will be present from Europe, Asia, Australasia, South Africa and South America. Among the countries to be thus represented are: Austria-Hungary, Belgium, Denmark, Finland, France, Germany, Great Britain and Ireland, Holland, Italy, Norway, Portugal, Russia, Spain, Sweden, Switzerland, China, India, Japan, Australia, South Africa, Brazil.

In connection with the jubilee convention, it is eminently proper that there should be a jubilee exhibit. The object of this exhibit is not only to show fittingly the evolution of the association movement in North America during the past fifty years, but also adequately to represent the means used, the varied character and quality of work done, and the results attained in the principal lines of activity in the different kinds of associations. It is believed that this exhibit will be one of the most important features of the convention, and will be of far-reaching significance to the movement as a whole.

COMPROMISING TAX CLAIMS.

Kentucky Court of Appeals Decides That it Can Not be Done—Must be Paid in Full.

FRANKFORT, Ky., May 28.—The Court of Appeals this morning handed down an opinion in the case of the city of Louisville against the Louisville Railway Company, which is in effect that tax claims can not be compromised, but must be paid in full.

The decision is a reversal of the Jefferson Circuit Court, which upheld a compromise approved by Mayor Weaver with the railway company by which the company paid to the city \$177,000 in settlement of a tax claim for \$311,000.

Judge White wrote the opinion in the case and Judge Durrelle, the Louisville member of the court, dissented from the majority opinion.

The decision is one of great importance, as many classes of corporations in the various cities of the State have effected such compromise.

He Is a Wonder.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

NEIGHBORHOOD NEWS.

Items of Interest Contributed by Our Country Correspondents.

EAST LIMESTONE, May 28th.—The air has been redolent with a heavy locust bloom.

Plenty of rain, and old farmers say, "A wet May and a dry June for good crops."

Only a small amount of the tobacco crop was set the present season.

Miss Emma Williams spent a week with her cousin, Miss Anna Meyers, of Rectorville, who is quite sick, with no improvement.

Mrs. Beighle and daughter Miss Pearl visited friends at North Fork last week.

Mr. and Mrs. James Ensor, of Orangeburg, and Mr. and Mrs. Robert H. Williams and Mr. and Mrs. Richard C. Williams, of this place, spent Sunday, May 19th, with Mr. and Mrs. A. J. Ensor at their pleasant home at Plumville.

Master Henry Meyers, of Rectorville, returned home Sunday after a week's visit here with relatives.

Mrs. Robert H. Williams, accompanied by her granddaughter, Emma Williams, went to Newport Thursday to visit her brother, Mr. Samuel Thornton, who is in quite feeble health.

Frank Williams was calling on friends at Oak Woods Wednesday.

The family of Alex. Montjoy, colored, were terrified and bewildered Sunday week past on discovering a strange object waving and floating slowly in the air at some distance from the earth, resembling at times a huge monster with wings, and again assuming the form of a giant serpent. The family gazed at the frightful monstrosity with wonder and amazement, thinking perhaps it was a messenger from heaven, when to their surprise it turned about and rapidly descended to the earth nearby. It was with much reluctance that Uncle Alex. summoned up courage to venture to the place of its destination to examine the object, when he found it to be a tobacco canvass, eighty feet long and four widths wide, which had disappeared from a tobacco bed belonging to Hiram Ballard, colored, about half a mile distant. There being no general wind at the time, the cause of its uplifting and aerial flight is supposed to have been a whirlwind.

The C. and O.'s net earnings for April were \$361,927; increase \$266.

Steamship Fell Over.

Baltimore, May 28.—A peculiar accident, which came near causing loss of life, occurred at William Skinner & Son's Shipbuilding and Dry Dock company's yards. The steamship Hudson of the Merchants' and Miners' Transportation company's fleet without any apparent reason suddenly fell over on her side in 30 feet of water. All the members of the crew were on board at the time of the accident, many of them having narrow escapes from drowning.

Doesn't Affect Philippines.

Washington, May 28.—The treasury officials discussed with much interest the decisions of the supreme court in the insular cases, and the conclusion has been reached that nothing in the decisions is conclusive upon the government to change its administration of the customs laws as to the Philippine islands.

BUNCH OF BRIEFS.

Telegraphic Intelligence Shredded For Instantaneous Digestion.

Boers captured a British post of 41 men near Mariasburg, Cape Colony.

Mrs. I. T. Osborne and young son perished in a fire that destroyed their home at Hatley, Ida.

William P. Hazen, chief of the government's secret service bureau, has resigned, to take effect June 12.

Alexander Peden murdered in prison at Memphis. N. A. Gillis, cellmate, held. Both arrested for safe-keeping.

James Post and his nephew were burned to death and Mrs. Post was badly burned in a fire in their residence at Havelock, Ont.

At Tilsonburg, Ont., two boys, Harley Mann and J. B. Adams, were playing in a barn loft, when the hay became ignited and both were burned to death.

For Education of Women.

Lexington, Ky., May 28.—The committee on higher education of the church in Kentucky has instructed Chairman W. G. Nourse of Hopkinsville to communicate with the northern synod to formulate a plan to unite the interests of both branches in Kentucky looking toward endowing Sayre college with \$1,000,000. This is the college for the education of women. The meeting of the synod takes place in November.

Mandamus Dismissed.

Cleveland, O., May 28.—Judge Strimple dismissed the mandamus suit brought against the board of county auditors by Mayor Johnson to compel it to make higher appraisements on various railroad properties in Ohio for taxation.

German Marines Withdrawn.

Berlin, May 28.—A dispatch from Peking says the withdrawal of the German marines to Tsing Tau has begun, and that the German quarters of Peking have been handed over to the Chinese authorities experimentally for a fortnight.

Strike Ordered.

Hartford, Conn., May 28.—A strike of machinists at the Billings & Spencer shop was ordered with the object of enforcing recognition of the union. About 2,500 machinists are now out in the city.

Fear the Worst.

Santiago, Chili, May 28.—It is now said that President Errazuriz, who has been suffering from paralysis and who was recently reported as improved, is very much worse and little hope of his ultimate recovery is entertained.

Bicycles are generally considered very modern inventions, but some of the Egyptian obelisks bear figures mounted on two wheeled vehicles resembling the old velocipedes.

KILLED BY A SHELL.

Famous Boer General and His Daughter Victims of an Accident.

Pretoria, May 28.—The Boer General Schoeman and his daughter have been killed and his wife and two daughters badly injured by the explosion of a shell. General Schoeman, his family and some friends were examining a 4.7 inch lyddite shell which they kept in the house as a curiosity, when the shell exploded, killing the general on the spot and mortally wounding his daughter, and severely injuring his wife and two other persons. General Schoeman was a great Krugerite. He led the commando of Colesburg and surrendered on the occupation of Pretoria. He was afterward captured by the Boers when the British occupied Barberton. The general went on a peace mission, was retaken by the Boers and was again released when the British took Pietersburg. Since that time General Schoeman has resided in Pretoria.

Found in the River.

Berlin, May 28.—The Lokal Anzeiger reports, on the authority of its Buda Pest correspondent, that there has just been taken from the river Danube near that city a dead body heavily loaded with chains which the Hungarian police firmly believe that of Romognoli, an anarchist reported to have been sent from America to murder the German emperor. The police of every country in Europe and America have been notified of the discovery of the body.

Tennessee Mine Horror.

Dayton, Tenn., May 28.—A terrific explosion of coal dust at the Richland mine of the Dayton Coal and Iron company resulted in the death of 21 men, all white. Several more were badly burned. A dynamite cartridge was placed in position in one of the rooms for a blast and the miners started for the mouth of the mine. The blast did not explode as intended, but instead a long flame shot out of the blast hole and ignited the accumulation of dust.

Steamer Founders.

Burlington, Ia., May 28.—The steamer W. J. Young arrived here with the passengers and part of the freight of the steamer Lubuque, which sunk 19 miles above Burlington. The boat lies in shallow water and can easily be raised. It is not much damaged. There was no excitement. All the passengers have been sent to St. Louis by rail.

Ruthven Reprieved.

Columbus, O., May 28.—Governor Nash has granted a reprieve to Edwin Ruthven until June 28. This is done in order that the governor's health may permit him to consider the new facts that those interested in the case claim to have to present. Ruthven was to have died in the electric chair at the penitentiary Thursday night.

Overcome by Gas.

Chicago, May 28.—Six persons who had been overcome by gas were found in their rooms in the Hotel Irvine. Three of the affected persons were unconscious, and John Hannan and William Doyle may die. The rest will recover.
